INTRODUCTION

This is the fifth comprehensive Census of Merchandising and Service Businesses taken in Canada and the first on a quinquennial basis. All known businesses within the scope of the census were surveyed although less detail was requested than for the 1961 Census.

The census covers all retail, wholesale and service businesses, with the following general exceptions: retail trade excludes non-store trade such as direct selling by mail (but not catalogue sales of department stores) and door-to-door, as well as retailing carried on as a minor activity by other businesses such as manufacturing, contractors, service establishments, etc.; services exclude those relating to education, health and welfare, most professions, finance, transportation, government, and trade and labour organizations. The census is conducted as a mail survey and is based on the list of all businesses prepared in June 1966 by census enumerators; this is augmented by a list of new business registrants for unemployment insurance in the last half of the year and by checking trade association publications and various other lists.

Classification changes

New kinds of business introduced for the first time in the 1966 Census are "Home and auto supply stores" and "Grocery, confectionery and sundries stores". The introduction of home and auto supply stores recognizes the diversification by many retailers previously classed as accessories, tires and battery stores into additional commodity lines not normally associated with the automotive trade. To isolate small neighbourhood stores whose grocery content has been largely diluted by a variety of unrelated merchandise, and in order to improve and purify statistics of the grocery store trade, a new classification "Grocery, confectionery and sundries" has been added to the census. Many of these stores were formerly classified as "Confectionery stores".

Another significant change has been made in the "Department store" classification. Catalogue sales data, formerly included with department store sales data, have been allocated to the "General merchandise store" classification. This serves to purify the department store sales statistics and at the same time keeps the catalogue sales data of department store chains confidential. A new department store definition also resulted in the reclassification of certain locations (see "Definitions" below) operated by department store firms to the kinds of business best suited to their commodity structure.

In addition to the introduction of new kind-of-business classifications, there have been other changes. This results from the fact that the 1966 questionnaire was designed to provide the respondent with the opportunity to classify his own business. Because of the improved coding which was thus made possible, shifts have occurred in certain trades, for example, between "Garages" and "Paint and body shops". Many of the specialty paint and body shops, formerly described as auto repair, now have been allocated to their proper classification.

Definitions

Statistics on merchandising and service businesses are presented under two concepts "Location" and "Establishment". Location statistics show every separate place of business in its own classification while establishment

Nous avons réuni dans le présent volume les résultats du cinquième recensement complet des entreprises qui s'occupent de commerce et de services, recensement qui est en même temps le premier recensement quinquennal de cette nature effectué au Canada. Toutes les entreprises connues qui entraient dans le champ du recensement ont été recensées, bien qu'on ait demandé moins de détails que pour le recensement de 1961.

Le recensement embrasse tous les établissements de vente au détail, de vente en gros et de service, à certaines exceptions près: la vente au détail ne comprend pas le commerce qui se fait hors du magasin comme la vente directe par la poste (mais bien les ventes par catalogue des grands magasins) et le porte à porte, non plus que la vente au détail effectuée à titre d'activité secondaire par les industries manufacturières, les entrepreneurs de construction, les établissements de service, etc.; les services ne comprennent pas l'enseignement, les services de la santé ni les services sociaux, ni la plupart des professions libérales, les finances, le transport, l'administration publique, ni les organismes syndicaux ou ouvriers. Le recensement se fait par la poste et utilise la liste des entreprises commerciales dressée en juin 1966 par les agents recenseurs; on ajoute à cette liste les nouvelles entreprises enregistrées par les Bureaux d'assurance-chômage dans la seconde moitié de l'année. On puise également dans les listes publiées par les associations de commerçants et par d'autres organismes.

Modifications apportées au classement

De nouvelles catégories apparaissent pour la première fois dans le recensement de 1966, soit "Fournitures de maison et d'automobile" et "Épicerie, confiseries et magasins d'articles divers". En créant la catégorie des magasins d'appareils ménagers et d'accessoires d'automobile, nous tenons compte du fait que beaucoup de détaillants, autrefois classés comme vendeurs d'accessoires, de pneus et de batteries, vendent en outre des appareils qui n'ont pas de rapport avec l'automobile. D'autre part, afin de faire la distinction entre les petits magasins de quartier où l'on vend, en plus des produits alimentaires, une foule d'autres articles, et d'améliorer la qualité et d'épurer les statistiques du commerce des épicerie, on a ajouté une catégorie aux catégories existantes du recensement: celle des "Épicerie, confiseries et magasins d'articles divers". Beaucoup de ces magasins étaient auparavant classés comme "Confiseries".

On a apporté une autre modification importante au classement des "Grands magasins". Les données sur les ventes par catalogue, incluses autrefois aux données relatives aux ventes des grands magasins, sont maintenant comprises dans la catégorie des "Marchandises diverses", qui a permis d'épurer les statistiques de vente des grands magasins et de préserver le caractère confidentiel des données sur la vente par catalogue des grands magasins à succursales. Une nouvelle définition du grand magasin a en outre donné lieu au reclassement de certains locaux d'affaires (voir "Définitions" ci-après) exploités par les grands magasins dans la catégorie convenant mieux à la gamme des marchandises vendues.

En plus de la création de nouvelles catégories il y a eu d'autres changements attribuables à la possibilité qui était offerte au répondant de classer lui-même son commerce dans le questionnaire de 1966 spécialement conçu à cette fin. Grâce à l'amélioration du codage qui en résultait, les statistiques de certains métiers accusent des variations en sens inverse comme, par exemple, les "Garages" et les "Ateliers de peinture et de réparation de carrosseries". Beaucoup d'ateliers spécialisés en peinture et en réparation de carrosseries, autrefois désignés sous le nom d'ateliers de réparation d'automobiles, sont maintenant classés dans leur propre groupe.

Définitions

La statistique des établissements de commerce et de service est présentée sous un double point de vue: celui du "Local d'affaires" et celui de l'"Établissement". La statistique des locaux d'affaires situe chaque maison de commerce dans sa

statistics comprise the accounting entity based on its major activity. For example, a firm operating a wholesale and a retail hardware business from two separate locations would be classified in its entirety as a wholesale hardware establishment if the wholesale operations predominated; for location statistics, however, the retail store would be classed as and included with retail trade, the wholesale location with wholesale trade. A business location may be within the scope of the census, but the establishment of which the location is a part may not be within scope.

Outline maps of counties and subdivisions of each province and of metropolitan and major urban areas may be obtained by ordering Census Bulletin 1-16, Catalogue No. 92-616. Maps showing census tracts of metropolitan areas are included in the Census Tract Series.

Kind-of-business descriptions, copies of the questionnaires used and some detail of census procedures, as well as an analysis of results, will be included in Census Bulletin 6-1, Catalogue No. 97-601. See outside back cover for a list of the 1966 Bulletins of the Census of Merchandising and Service Trades.

This bulletin comprises retail locations only. Any changes that may affect comparability with 1961 retail trade statistics, have been noted in the "Classification changes". For changes in certain metropolitan and major urban areas, reference should be made to Census Bulletin 1-16, Catalogue No. 92-616.

Note: Cities shown in Table 7 are those forming part of metropolitan and major urban areas only. Other cities of 30,000 population and over are shown in Table 2, Catalogue No. 97-602.

propre catégorie, tandis que la statistique des établissements tient compte du siège de la comptabilité et le classe suivant l'activité principale. Ainsi, par exemple, une firme qui exploite un site de quincaillerie en gros à tel endroit et un commerce de quincaillerie en détail ailleurs est classée comme établissement de quincaillerie en gros si le commerce de gros prédomine; au point de vue, toutefois, des locaux d'affaires, le magasin de détail est classé comme commerce de détail et compris dans cette catégorie, le magasin de gros étant classé dans la catégorie des commerces de gros. Un local d'affaires peut être compris dans le cadre du recensement, sans que l'établissement dont il dépend y soit nécessairement.

On peut se procurer des cartes de contours des comtés et subdivisions de chaque province ainsi que des zones métropolitaines et grandes agglomérations urbaines en commandant le bulletin de recensement 1-16, numéro de catalogue 92-616. Les cartes indiquant les secteurs de recensement des zones métropolitaines sont comprises dans les rapports de la Série des secteurs de recensement.

Dans le bulletin de recensement 6-1, numéro de catalogue 97-601, on trouvera la description des genres de commerces, des reproductions des questionnaires utilisés et certains détails relatifs aux méthodes de recensement, ainsi qu'une analyse des résultats. La liste des bulletins de 1966 du recensement des entreprises de commerce et de service se trouve à l'extérieur de la couverture arrière.

Ce bulletin ne traite que les locaux d'affaires au détail. Les modifications dont il faut tenir compte lors de toute comparaison avec la statistique du commerce de détail de 1961 ont déjà été signalées sous la rubrique "Modifications apportées au classement". Pour ce qui est des modifications de certaines zones métropolitaines et grandes agglomérations urbaines, on consultera utilement le bulletin de recensement 1-16, numéro de catalogue 92-616.

Nota: Les villes figurant dans le tableau 7 sont uniquement celles qui font partie des régions métropolitaines et des grandes agglomérations urbaines. Les autres villes de 30,000 habitants et plus sont données dans le tableau 2, numéro de catalogue 97-602.

REPORTS OF THE CENSUS OF CANADA, 1966

This report is one of a series comprising Volume VI of the 1966 Census. Reports in these series are so prepared that, by removal of the covers, the contents can be combined to form the materials of each census volume. A hard-covered binder, suitably titled, is supplied to purchasers of the complete set of reports for any given volume.

Individual reports of Volume VI are listed below. They can be ordered singly by catalogue number, or the complete set including the cover binder at a composite price of \$8. Orders may be sent to **Publications Distribution, Dominion Bureau of Statistics**, or to **Superintendent of Publications, Department of Public Printing and Stationery, Ottawa**. Regulations require that remittance be made prior to the mailing of reports, in the form of a cheque or money order payable to the **Receiver General of Canada**. Orders for reports not yet released will be filled as soon as they become available.

A brochure is available listing the individual bulletins of the 1966 Census of Merchandising and Services. For a copy of this brochure, or for further information on census publications, address your inquiry to the **Information and Public Relations Division, Dominion Bureau of Statistics**. Census of Canada reports on population and agriculture contained in Catalogue Nos. 92-601 to 99-604 may be obtained from the same source.

RAPPORTS DU RECENSEMENT DU CANADA, 1966

Le présent rapport fait partie d'une série qui constitue le volume VI du recensement de 1966. Les rapports se présentent de telle sorte qu'en enlevant les couvertures l'utilisateur peut les réunir et ainsi constituer la matière de chaque volume du recensement. Un auto-relieur à couverture rigide et portant le titre approprié sera fourni à ceux qui achèteront la série complète des rapports devant constituer un volume.

Ci-dessous paraît la liste des rapports contenus dans le volume VI. On peut se les procurer individuellement à l'aide du numéro de catalogue, ou bien commander la série complète avec auto-relieur moyennant un prix global de \$8. On peut adresser sa commande à **Distribution des publications, Bureau fédéral de la statistique**, ou au **Surintendant des publications, Département des impressions et de la papeterie publiques, Ottawa**. En vertu des règlements, les rapports ne seront envoyés que sur réception de la remise nécessaire sous forme de chèque ou mandat établi au nom du **Receveur général du Canada**. Les commandes de rapports non encore publiés seront exécutées aussitôt que les rapports paraîtront.

On peut se procurer une brochure qui énumère les différents bulletins du recensement de 1966 des entreprises de commerce et de service. Pour en obtenir un exemplaire ou pour tout autre renseignement au sujet des publications du recensement, prière de s'adresser à la **Division de l'information et des relations extérieures, Bureau fédéral de la statistique**, qui vous fournira également des rapports sur la population et l'agriculture, numéros de catalogue 92-601 à 99-604.
